## Audit of Emergency Action Plans for U.S. Mission Pakistan

AUD-MERO-14-08

Office of Audits

December 2013

This report has been designated as Classified. Please go to the [OIG FOIA page](#) for information on how to request a Mandatory Declassification Review (MDR).

*(This is an unclassified summary of a classified report)*

OIG conducted an evaluation to determine whether U.S. Mission Pakistan had comprehensive, up-to-date, and adequately tested Emergency Action Plans (EAP).

OIG determined that the Bureau of Diplomatic Security approved the EAPs for Embassy Islamabad and Consulates General Karachi, Lahore, and Peshawar. In addition, the Embassy and Consulates General made personnel aware of their respective EAP and periodic planning, training, and drills. However, the Emergency Action Committees at each location had not ensured that certain resources were available to respond to some emergencies.

OIG recommended that Embassy Islamabad and Consulates General Karachi, Lahore, and Peshawar ensure that their EAPs were updated and practiced, and that resources, services, and capacities were sufficient to respond to emergencies. OIG also recommended that DS validate the adequacy of EAPs at high-threat posts, such as U.S. Mission Pakistan.
